

## COLOR TOOLS

### CONSISTENT COLOR SUPPORT AND MANAGEMENT

PPG understands that color choice and color consistency are absolutely critical components in the restoration of a building, and we are uniquely suited to provide expertise and guidance in color matching, selection and delivery.

PPG offers the most comprehensive color solutions for the most surfaces. Whether your design calls for steel, aluminum, drywall, concrete, wood or some other surface, PPG has coatings to color it just the way you imagine it. And since the right tools are essential for specifying color, PPG also provides a wide array of user-friendly color selection tools to help throughout the process.

Let us show you the tools we have to make your job easier.

### PPG CORAFLO<sup>®</sup> ADS INTERMIX COLOR CARD

The *Coraflo* ADS Intermix color card features 45 colors including 20 solid colors, 22 micas and three metallics. The *Coraflo* ADS Intermix colors are available in two finishes: satin and gloss. These colors, chosen for their beautiful depth and range, give lasting color and gloss retention and weather resistance to metal surfaces.

The *Coraflo* ADS Intermix color card was designed to inspire your color choices and assist you in making the right color decision for your restoration project. You can either choose from one of the readily available 45 colors on the *Coraflo* ADS Intermix color card, or we can custom match a variety of colors to meet your specific color and durability requirements.

Item # H14291

### CORAFLO<sup>®</sup> ADS INTERMIX FAN DECK

The *Coraflo* ADS Intermix fan deck is a great tool to use with your customers, enabling you to become a color resource and setting you apart from the competition. The fan deck includes all 45 colors from the *Coraflo* ADS Intermix color card on 3" x 5" color panels. Because the panels are actual *Coraflo* ADS Intermix Coatings on aluminum, you can see the color and feel the surface of the paint to get a true representation of the product's color and finish. The deck is organized into three sections—solids, micas and metallics—for easy color comparison and selection.

Item # H16626

### PROFESSIONAL, LARGE-SIZED COLOR SAMPLES

We've created 8½" x 12" color swatches for your design boards, allowing you to evaluate the color for your restoration projects. Call 1.888.PPG.IDEA (1.888.774.4332) to order your color samples.

### DIGITAL COLOR IMAGING SERVICES

The PPG color imaging service assists you in the process of selecting appropriate exterior colors for your restoration project, so you can experiment with color online before making a final decision. PPG and ISA IMAGING have partnered to deliver the best color imaging services and preserve the highest possible level of realism for your project. Your PPG representative will work with you to create color options, and you can count on critical attention to architectural details, expert image manipulation and accurate color adjustments every time.
