

PPG SERVICES FOR NATIONAL RETAIL FACILITIES

Retail facility managers are faced with a significant list of responsibilities in order to keep their retail locations updated and on-brand, as well as functioning properly to provide a positive experience for customers.

PPG Services, powered by Paintzen technology, allows facility managers to more effectively manage the painting of their retail facilities nationwide while saving time with our digital project management tools and ensuring consistency across all locations.

BENEFITS FOR RETAILERS:

- Consistent paint specs across all paint projects for proper brand representation
- Transparent, consistent & predictable pricing
- Reporting capabilities through instant access to job data, site photos, schedule dates and project phases
- National network of fully sourced, vetted, reliable paint contractors for fast, efficient job completion
- A streamlined and efficient approach to managing the painting needs of all your facilities nationwide

SERVICES INCLUDE:

- Multi-site rollouts & individual location repaints
- Re-branding & renovations
- High-traffic & full location refreshes
- Reactive & preventative maintenance programs
- Paint color, product specifications and color matching
- Specialty coatings and wall coverings

CASE STUDY: Reducing Maintenance Painting Costs

Developed efficient maintenance paint program for wireless provider across 3,500 retail locations.

- **667 Maintenance Jobs**
- **4 Month Period**
- **Total Revenue: \$1,057,733**
- **Number of Crews: 146**

With our streamlined project management solution, PPG Services was able to save our client over 3 hours per job across all 667 locations. In addition, handling all paint crew scheduling, communication, and logistics saved the client in on-boarding costs as well as time spent scoping jobs and communicating the details with on-site contractors.

Total Estimated
Customer Savings:
\$124,793
