Several key considerations need to be taken into account when selecting the appropriate paint products:

Areas where fast turnaround times are needed to ensure minimum disruption like classrooms, hallways, and other common areas.

Areas where zero or low-VOC and low-odor products are required like class rooms, hallways, and other common areas

Exterior areas subject to the harsh effects of the weather like facades, entry ways and stairways.

High traffic areas that take physical abuse like hallways, stairways, classrooms, and cafeterias.
