SILVER TIP[®]

**Soft Feel &
Smooth Release
at Silver-Level
Prices**

Wooster-exclusive CT™ (chemically tipped) polyester filaments are what give Silver Tip brushes their luster. These filaments have a full-body feel yet they're very thin, flexible, and soft to virtually eliminate brushmarks. The responsiveness and bend recovery of these brushes are perfect for delivering sharp, single-pass cuts. Silver Tip brushes provide excellent leveling and smoothing with all paints, but are especially suited for applying enamels to metal, varnish or polyurethane on wood, and thinner water-based coatings.

Silver Tip - White & silver CT polyester filaments for excellent leveling & smoothing - Stainless steel ferrule
- Very soft yet responsive formulation, feather stroke - Hardwood handle
